

Posters and oral presentations at international conferences

- RCOG 2011 Athens
 - Unusual presentation of uterine leiomyosarcomas of the uterus: a case report and literature review. Olowu O, Palamarchuck T, Odejinmi F
- ESGE 2011 London
 - Comparing demographics and outcomes by type of hysterectomy in an inner London University hospital. LASH vs TLH. Arambage K Odejinmi F
 - Laparoscopic management of ectopic pregnancy 10 year experience in an inner London University Hospital. Olowu O, Deo N, Shahid A. Odejinmi F
 - Ovarian dysgerminoma mimicking an ectopic pregnancy: case report and literature review. Olowu O, Vimplis S, Odejinmi F.
 - Demographic characteristics, clinical presentations and risk factors of ectopic pregnancies in 500 consecutive surgically managed cases. Morelli M, Sankaran S, Cunliffe J, Odejinmi J.
 - Patient satisfaction with surgical management of ectopic pregnancy. Olowu O, Odejinmi F.
 - Dedicated consultant-lead EPAU service reduces surgical intervention in ectopic pregnancies. Lawin-Obrien A, Shahid A, Bhaskaran L, Deo N, Odejinmi F
- BSGE 2010
 - Prospective observation study of laparoscopic myomectomy. Sankaran S, Odejinmi F
- International federation of obstetricians and gynaecologists (FIGO) Cape Town South Africa 2009
 - Hussain M, Odejinmi F. laparoscopic supracervical hysterectomy for the large patient with the large uterus International journal of Obstetrics and gynaecology 107 S204 2009
 - Kalidindi M, Odejinmi F. Laparoscopic sacrocolpopexy: Our experience at an inner city London hospital. International journal of obstetrics and gynaecology S217
 - Kulkarni V, Rizzuto I, Justin W, Odejinmi F. Diagnostic accuracy of laparoscopy in the identification of endometriosis: a 5 year study at a London university hospital. International journal of Obstetrics and gynaecology S234
 - Olowu O, Odejinmi F, Shahid A, Ayinde O. Laparoscopic ovarian cystectomy: five years experience of presumed benign ovarian cysts. International journal of Obstetrics and gynaecology S297
 - Olowu O, Odejinmi F. Laparoscopic management of 14 consecutive cases of large ovarian cysts: four year experience. International journal of obstetrics and gynaecology S298
 - Sankaran S, Shahid A, Odejinmi F. A prospective observational study of laparoscopic myomectomy: Does size still matter? International journal of obstetrics and gynaecology S328

- Kalidindi M, Odejinmi F. Laparoscopic excision of adenomatoid tumour. International journal of obstetrics and gynaecology S551
- Kalidindi M, Kulkarni V, Odejinmi F. Long term outcome following laparoscopic supracervical hysterectomy. International journal of Obstetrics and gynaecology
- Olowu O, Odejinmi F. Laparoscopic management of 12 consecutive cases of torsion of ovarian cysts: for year experience. International journal of obstetrics and gynaecology
- British society for gynaecological endoscopy ASM 2009-05-08
 - Shahid A, Sankaran S, Odejinmi F: Laparoscopic subtotal hysterectomy for large uteri using a modified five-port operative technique OP10
 - Justin W, Shahid A, Odejinmi F: Laparoscopic management of a 16 weeks ruptured rudimentary horn pregnancy- video presentation
 - Odejinmi F, Rizzuto M, Ballard K: Operative laparoscopy rates and adequacy of training for the surgical management of ectopic pregnancy in a sub-region of the United Kingdom – poster presentation
- Oral presentation London Deanery registrar meeting 2009
 - Sankaran S and Odejinmi F: a prospective observational study of laparoscopic myomectomy does size still matter
 - Awarded second prize
- Oral presentation International meeting of the RCOG 2009
 - Olowu O, MacRae R, Rizzuto MI., Odejinmi F: laparoscopic management of 25 consecutive non tubal pregnancies
- Oral presentation ISGE 2008
 - Hussain M, Odejinmi F. laparoscopic supracervical hysterectomy for the large patient with the large uterus
- Oral presentation AAGL Las Vegas 2008
 - Rizzuto M, Shahid A, Odejinmi F. laparoscopic surgery and omental herniation a case series
 - Macrae R, Olowu O, Rizzuto MI, Hussain M, Odejinmi F. Diagnosis and laparoscopic management of 9 consecutive cases of ovarian ectopic pregnancy
- Poster presentation British Congress of O&G Montreal Canada 2008
 - Olowu o, Macrae, R, Rizzuto MI Odejinmi F. Laparoscopic management of 11 consecutive cases of cornual ectopic pregnancy

- Macrae R, Olowu O, Rizutto MI, Hussain M, Odejinmi F. Diagnosis and laparoscopic management of 9 consecutive cases of ovarian ectopic pregnancy
- Poster presentation world Endometriosis Society Congress Melbourne Australia 2008
 - Rizzuto MI, Odejinmi F. Laparoscopic day case management of endometrioma within the broad ligament. Book of abstracts proceedings of the 10th World congress on Endometriosis. Melbourne Australia 2008, pg 74.
 - Rizzuto MI, Odejinmi F. Laparoscopic management of an unsuspected unusual endometriotic ovarian cancer. Book of abstracts proceedings of the 10th World congress on Endometriosis. Melbourne Australia 2008, pg 74.
 - Rizzuto MI, Vorbachova J, Odejinmi F. Diagnostic accuracy of laparoscopy for the diagnosis of endometriosis: Evaluation of visual diagnosis and histological findings in a London university hospital. Book of abstracts proceedings of the 10th World congress on Endometriosis. Melbourne Australia 2008, pg 92
- Poster presentations at the British International congress of Obstetrics and gynaecology London 2007
 - Rizzuto MI, Thakur V, Adeyemo B, Odejinmi F. Is laparotomy still necessary for the surgical management of ectopic pregnancy? Change in surgical practice. Poster presentation, book of abstracts. British International congress of Obstetrics and Gynaecology London 2007. pg 69.
 - Rizzuto MI, Thakur V, Adeyemo B, Odejinmi F. Is it possible to sustain a high laparoscopic rate for the management of ectopic pregnancy? Our 4 year experience in a district general hospital. Poster presentation book of abstracts, British International congress of Obstetrics and Gynaecology London 2007. pg 69.
 - Thakur V, Rizzuto I, Adeyemo B, Odejinmi F. Omental herniation following operative laparoscopy: A case series. Poster presentation book of abstracts British International congress of Obstetrics and Gynaecology London 2007. pg 79.

- Rizzuto MI, Thakur V, Adeyemo B, Odejinmi F. Laparoscopic management of an unsuspected unusual endometriotic ovarian cancer. Poster presentation book of abstracts, British International congress of Obstetrics and Gynaecology London 2007. pg 194.
- Poster presentation British society of Gynecological Endoscopy Annual Scientific Meeting Birmingham 2007
 - McMillan H, Gupta A, Allen J, Odejinmi F, Phillips K. Multicentre retrospective study of documentation of consent for a laparoscopic procedure. p13 book of abstracts BSGE 2007
 - Rizzuto MI, Kulkarni A, Odejinmi F. Laparoscopic management of an “endometrioma” within the broad ligament. p11 book of abstracts BSGE 2007
- Oral presentation British society of Gynecological Endoscopy Annual Scientific Meeting Birmingham 2007
 - Rizzuto MI, Odejinmi F. Changing and sustaining trends in operative management of ectopic pregnancy in a district general hospital. Oral presentation British society of gynaecological endoscopy Birmingham 2007 book of abstracts p 11.
- Oral presentation Global congress of minimally invasive gynecology 36th annual meeting of the AAGL Washington DC 2007
 - Odejinmi F Laparoscopic day case management of an endometrioma within the broad ligament. Supplement Journal of minimally invasive gynaecology. 14;6: Pg 79
 - Rizzuto MI, Odejinmi F. The changing and sustained trends in the laparoscopic management of ectopic pregnancy in London district general hospital 7 year experience. Supplement Journal of minimally invasive gynaecology. 14;6:Pg 87.

- Rizzuto MI, Macrae R, Odejinmi F. laparoscopic management of ectopic pregnancy in the presence of a significant haemoperitoneum. Supplement Journal of minimally invasive gynaecology. 14; 6: Pg 88
- Oral presentation Global congress of minimally invasive Gynaecology 35th annual meeting of the AAGL Las Vegas Nevada 2006
 - Alalade AO, Noor S, Odejinmi FO. Training issues in the laparoscopic management of ectopic pregnancy: A regional survey. Supplement Journal of minimally invasive gynaecology. 13;5: Pg 122
- Poster presentation 34th presentation Global congress of minimally invasive Gynecology 36th annual meeting of the AAGL Chicago 2005
 - Mansoor S, Odejinmi F. Is day case surgery justifiable in the treatment of endometriosis: potential benefits in effective health care service. Oral presentation, supplement Journal of minimally invasive gynaecology S67 2005.
 - Noor S, Alalade A, Odejinmi F. Rate of negative laparoscopy for ectopic pregnancy depends on diagnostic, clinical and biochemical criteria; and ultrasound expertise of the department. Poster presentation AAGL Meeting Chicago 2005 supplement Journal of minimally invasive gynaecology 2005 S106
- Poster presentation Joint meeting of the international society of Gynecological Endoscopy and the British society of Gynecological Endoscopy London 2005
 - Mansoor S, Odejinmi F. Laparoscopic surgery in endometriosis: feasibility as day-case treatment. Poster presentation joint meeting ISGE/BSGE London 2005 P7.08
- Oral presentation Joint meeting of the international society of Gynecological Endoscopy and the British society of Gynecological Endoscopy London 2005

- Noor S, Alalade AO, Odejinmi JF, Opemuyi I. Comparative analysis of data from two different hospitals have shown dedicated specialist nurse led early pregnancy assessment unit and ultrasound scan expertise as the most important factors in determining the rate of negative laparoscopy. Free communication book of abstracts joint meeting ISGE/BSGE London 2005 F8.06
 - Alalade AO, Noor S, Odejinmi JFO. Rate of negative laparoscopy for ectopic pregnancy depends on diagnostic, clinical and biochemical criteria and ultrasound expertise of the department. Free communication book of abstracts joint meeting ISGE/BSGE London 2005 F8.07
- Poster presentation International meeting of the Royal College of Obstetricians and Gynaecologists Cairo Egypt 2005
 - Sivarajan S, Odejinmi F. Retrospective audit and critical analysis of the route of hysterectomy developed from evidence based guidelines. Accepted for poster presentation RCOG meeting Cairo Egypt 2005
- Poster presentation world Endometriosis Society Congress Maastricht Netherlands 2005
 - Mansoor S, Odejinmi F. Diagnostic accuracy of laparoscopy for endometriosis, evaluation of visual diagnosis and histological findings. A step towards see and treat management. Poster presentation 9th world congress of endometriosis Maastricht Netherlands 2005
 - Mansoor S, Odejinmi F. Laparoscopic surgery in endometriosis: feasibility as day-case treatment. . Poster presentation 9th world congress of endometriosis Maastricht Netherlands 2005
- Poster presentation 34th presentation Global congress of minimally invasive gynecology 33th annual meeting of the AAGL Chicago 2005
 - Nanda S, Noor S, Odejinmi F Skilled dedicated endoscopic teams – responsible for the rise in laparoscopic management of ectopic pregnancy. Poster presentation American Association of gynaecological endoscopists. San Francisco 2004
